SNAP IN PROTECTION SYSTEM

Tired of ripping little pieces of cardboard and stuffing them into boxes? Tired of chipping mud out of your work area or scrapping your knuckles pulling out painted cardboard? Finally, there's a product that can help eliminate the abuse and damage to your work caused by other workers. S.N.A.P.S., simple snap-in protection plates, install in seconds and provide months of armor-like protection for your wires, devices and work area. Simply pop off your reusable protection plate and your work is just as clean and untouched as the day you left it. Check out what you've been missing. Order S.N.A.P.S. today and take back your work area.

1 Step 1: Hold Snap plate on edges with screw holes.

2 Step 2: Hook feet on right side or bottom of plate

3 Step 3: Once feet are seated press plate to ring and hit/press firmly to snap in.

4 Step 4: Apply Decal. (Optional)
